

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Olive Grove Charter School - Lompoc

CDS Code: 42 77206 0138370

School Year: 2025-26

LEA contact information:

Meg Rydman

Superintendent

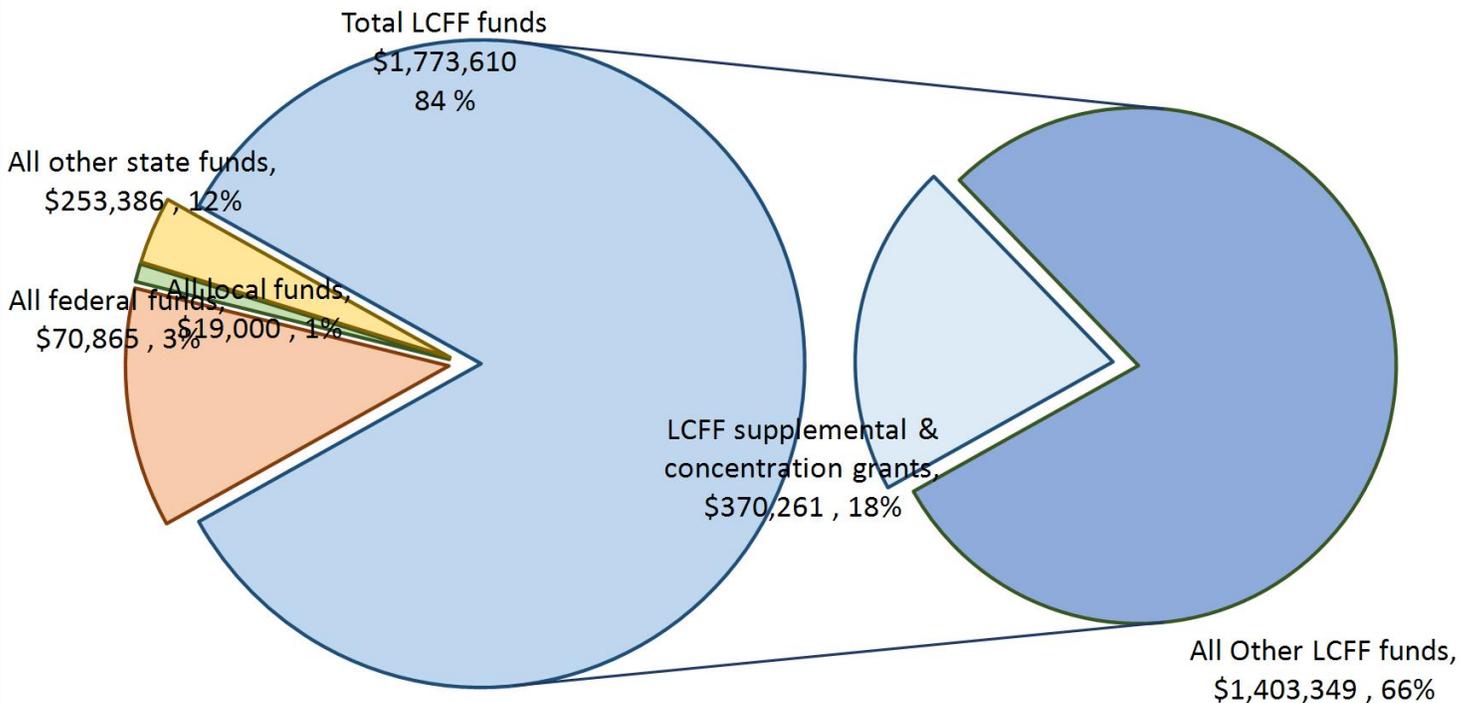

mrydman@olivegrovecharter.org

805-623-1111

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

Projected Revenue by Fund Source

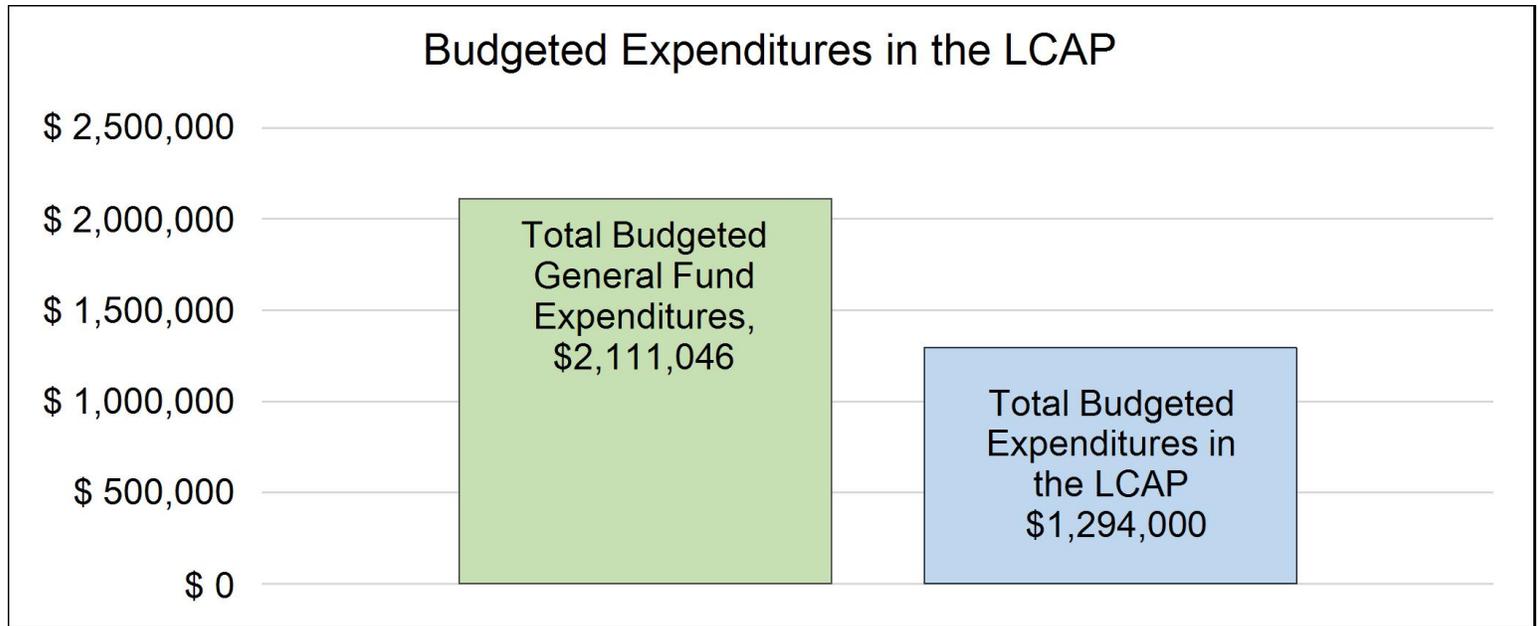

This chart shows the total general purpose revenue Olive Grove Charter School - Lompoc expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Olive Grove Charter School - Lompoc is \$2,116,861, of which \$1,773,610 is Local Control Funding Formula (LCFF), \$253,386 is other state funds, \$19,000 is local funds, and \$70,865 is federal funds. Of the \$1,773,610 in LCFF Funds, \$370,261 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Olive Grove Charter School - Lompoc plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Olive Grove Charter School - Lompoc plans to spend \$2,111,046 for the 2025-26 school year. Of that amount, \$1,294,000 is tied to actions/services in the LCAP and \$817,046 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

The budgeted expenditures that are not included in the LCAP will be used for the following:

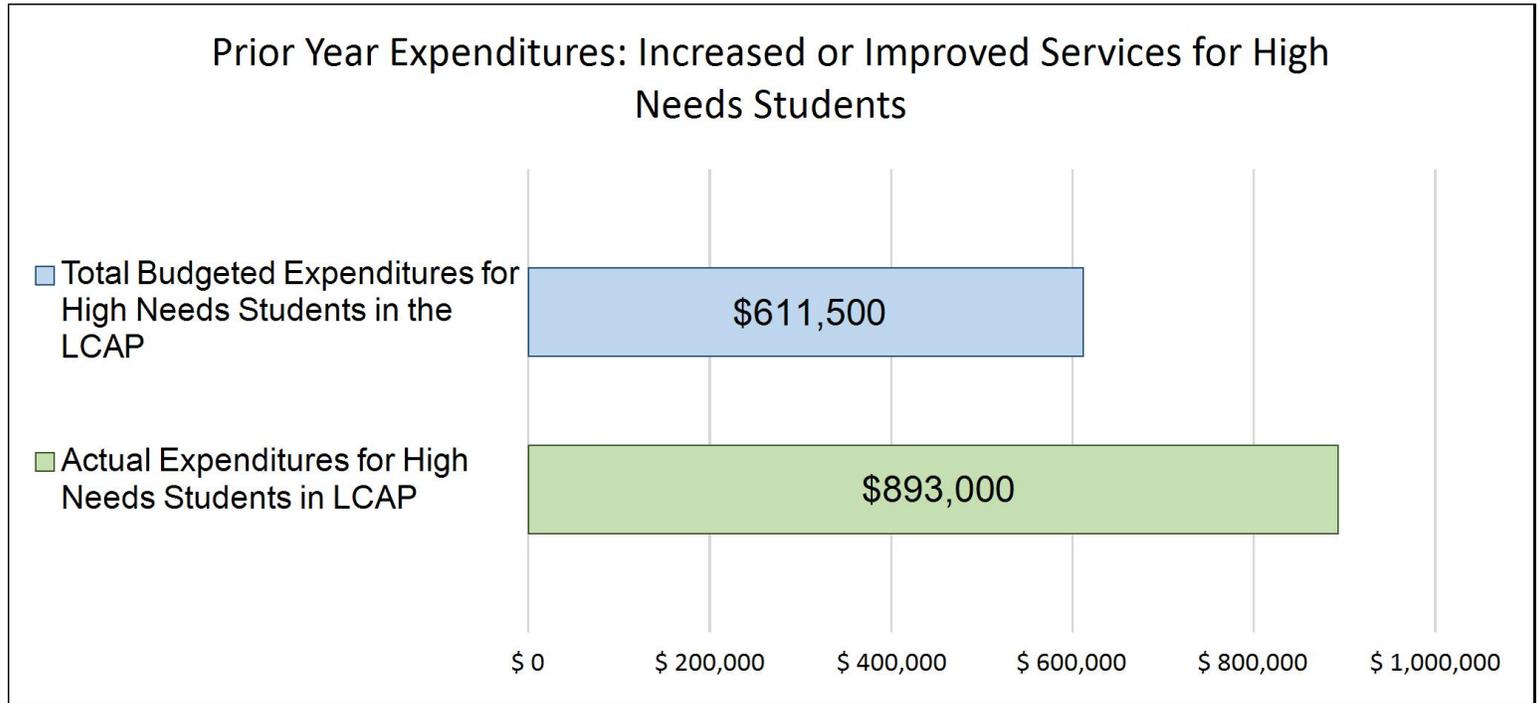

- Services and other operating expenses
- General liability insurance
- Facilities (rent)
- Contracted services
- Legal services
- Capital Outlay

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Olive Grove Charter School - Lompoc is projecting it will receive \$370,261 based on the enrollment of foster youth, English learner, and low-income students. Olive Grove Charter School - Lompoc must describe how it intends to increase or improve services for high needs students in the LCAP. Olive Grove Charter School - Lompoc plans to spend \$877,500 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Olive Grove Charter School - Lompoc budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Olive Grove Charter School - Lompoc estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Olive Grove Charter School - Lompoc's LCAP budgeted \$611,500 for planned actions to increase or improve services for high needs students. Olive Grove Charter School - Lompoc actually spent \$893,000 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Olive Grove Charter School - Lompoc (OGCS) is a charter school for students in grades TK-12. OGCS provides a voluntary public education choice for families who choose for their students to be educated in a personalized, hybrid learning environment. Our flex-based independent study charter school enables students with different learning styles and family situations to get the education they are not able to achieve in a traditional school setting.

OGCS operates as an independent study program authorized by the California State Board of Education (SBE), with operations overseen by the California Department of Education (CDE). Students attend individualized meetings with a certificated teacher on a regular basis. At this individualized meeting, the certificated teacher reviews previously assigned learning objectives and assignments, provides instructional support, delivers assessments, and assigns learning objectives and assignments. Parents/guardians are an integral part of the program's success. Parents/guardians of students in grades TK-8 are expected to be present at every meeting with the teacher of record. For students in grades 9-12 parents/guardians are encouraged to be present at every meeting, but are required to attend one meeting per month, at minimum. If parents/guardians are unable to attend or to support students academically, additional supports are put in place for the student to achieve academic and social-emotional success through each student's personalized independent study academic plan, as outlined in the Independent Study Agreement. As part of a systematic approach to grade level and post-secondary success, additional support options are offered for students in math and English-language arts and for completion of UC A-G approved laboratory requirements in science and visual arts.

Until 2022 OGCS qualified for Dashboard Alternative School Status (DASS), though the school's population evolved such that it has not since qualified to renew this status. OGCS continues to have a relatively high level of transiency, however, in that many students enroll after the start of the school year/semester, and many students depart prior to the conclusion of the semester. Additionally, many incoming high school students arrive with serious deficiencies in their course completion, both in terms of A-G completion as well as in relation to the completion of graduation requirements.

OGCS meets the needs of students that are looking for innovative options differing from those of the traditional educational system. There are increasing numbers of students who benefit from a student-centered personalized learning model, offered through this independent study teaching and learning environment. The OGCS model also supports students that must work to help support their families or are working in a professional setting, be it sports or entertainment. School systems, students, and parents/guardians seek out OGCS when it is believed a more personalized learning environment will support student academic outcomes and personal success.

Mission Statement:

The mission of Olive Grove Charter School is to prepare students with the skills necessary to self-advocate, communicate effectively, utilize technology responsibly, and pursue higher education or the workforce on their path to becoming successful adults. With the supportive leadership of their parents/guardians, credentialed teachers, and support team, our students utilize a rigorous, standards-based, online curriculum. Olive Grove is committed to an educational environment where TK-12 students excel at completing coursework and learning independently.

Core Values:

Partnership

- Entire team working together to achieve the same goal
- Parent involvement
- Staff involvement and support
- Accountability for all learning partners
- Building trust

Engagement

- Individualized, personalized support
- Learner-centered
- Rigorous curriculum
- Adaptability, flexibility
- Learning centers (safe space, optional in-person support)

Empowerment

- Fostering self-reliance
- Self-advocacy
- Responsibility
- Resilience
- Independence

Compassion

- Understanding and responding to individual students' situations
- Modeling and instilling equity and respect
- Prioritizing integrity
- Cultivating kindness
- Inclusive and accommodating

In 2024-2025 OGCS Lompoc enrolled 125 students in grades TK-12, including 6.4% elementary students (grades TK-5), 13.6% middle school students (grades 6-8), and 80.0% high schools students (grades 9-12). At 26.4%, students in grade 12 make up the largest portion of the overall student population, followed by 11th grade students at 24.0%. (DataQuest 2024-25 Enrollment by Grade Report)

Of the 125 total enrolled students, 8.8% were English Learners, 0% were foster youth, 3.2% were homeless youth, 0% were in migrant education, 27.2% were students with disabilities, and 84.8% were socioeconomically disadvantaged students. (DataQuest 2024-25 Enrollment by Subgroup Report)

American Indian or Alaska Native students comprised 0.8% of enrolled students; Filipino 0.8%; Hispanic or Latino 73.6%; White 20.0%; and students with Two or More Races comprised 4.8%. (DataQuest 2024-25 Enrollment by Ethnicity Report)

In 2024-25, 50.4% of our students were in their first year of enrollment with OGCS and 17.6% were in their second year. 32.0% of the students had been enrolled for 3 or more years. (OGCS Student Information System)

OGCS Lompoc's stability rate for 2023-24 was 60.7% for all students, 65.5% for Hispanic or Latino students, 41.2% for White students, and 66.7% for Two or More Races. For reference, Lompoc Unified School District's stability rate is 88.2% for all students, Santa Barbara County's stability rate is 91.7% for all students, and the Statewide stability rate is 91.0% for all students. (DataQuest 2024-25 Stability Rate Report)

OGCS expended all of its Learning Recovery Emergency Block Grant (LREBG) funds by the end of fiscal year 2024-25. OGCS did not receive Equity Multiplier funds, nor does it have 30+ English Learners (ELs) or 15+ Long-Term English Learners (LTELs) enrolled.

Additionally, OGCS Lompoc was identified for Additional Targeted Support and Improvement (ATSI) in 2022 and 2023, but exited in 2024. (2024–25 Every Student Succeeds Act Assistance Status spreadsheet, California Department of Education December 2024)

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Over the past year, OGCS demonstrated both areas of success and challenges in its commitment to providing equitable, high-quality education in a personalized, independent study setting.

Successes:

-Growth in English Language Arts (ELA) Performance Across All Student Groups

All students improved from -57.3 DFS (Orange) to -24 DFS (Yellow).

Socioeconomically Disadvantaged (SED) students improved from -67.2 DFS (Orange) to -20.9 DFS (no performance color).

Hispanic students improved from -73.8 DFS (no performance color) to -34.4 DFS (no performance color).

-Growth in Math Performance Across All Student Groups

All students improved slightly - DFS: -159.6, previously -173.9.

Socioeconomically Disadvantaged (SED) students saw improvement - DFS: -161.6, previously -179.9.

Hispanic students saw improvement - DFS: -176, previously -189.6.

-Conditions of Learning

OGCS successfully ensured that 100% of teachers were appropriately assigned, facilities were rated in “Good” condition, and all students had access to standards-aligned instructional materials. This consistent delivery of fundamental educational services lays a strong foundation for student success.

-Engagement and Climate

OGCS maintained a 0% suspension and expulsion rate.

Parent engagement and perception data showed improvement, with 97% of parents agreeing that OGCS promotes involvement and communication. Survey data also indicated strong feelings of safety and connection among students and families.

-Increased High School Graduation Rate

The four-year graduation rate increased from 41.7% to 66.7%.

SED students increased from 48.0% to 59.4%.

Hispanic students increased from 36.8% to 63.3%.

Students with Disabilities (SWD) graduated at a higher rate than other student groups (69.2%).

Challenges:

-Increased Chronic Absenteeism

All students increased from 23.7% to 32.4%. (Red Performance Level - Increased Significantly)

Socioeconomically Disadvantaged students increased from 25.8% to 30.8%

Hispanic students improved - declined from 28.1% to 24%.

-College Preparedness Declined

0% prepared, decreased from 4.2%.

OGCS embedded targeted actions within its LCAP to address challenges and the individualized needs of students. These include:

-Increased In-Person Supports: Expansion of academic and social enrichment events, workshops, and individualized coaching sessions aims to mitigate isolation, support engagement, and remove barriers to attendance (Action 3.5).

-Targeted Interventions: Implementation of in-person and virtual tutoring, benchmark assessments, and individualized learning plans are supporting academic recovery (Action 2.2).

-English Learner Supports: The EL Coordinator provides integrated and designated ELD support, along with professional development for teachers to enhance instruction for ELs (Action 2.4).

-College and Career Access: Efforts to improve college/career readiness include dual enrollment, career exploration, and UC/CSU preparatory pathways (Action 2.7), though implementation was partial and will be expanded.

-Mental Health and Family Engagement: Parent workshops, community partnership development, and designated family liaisons aim to support families holistically (Actions 3.2–3.4).

-Attendance and Engagement : Chronic absenteeism is being addressed through individualized outreach, transportation assistance, and family engagement workshops, although implementation was only partial in 2024–25. (Action 3.5)

2023 Dashboard-identified needs, resulting in required actions included in this LCAP:

-Mathematics: Red performance level for All Students and Socioeconomically Disadvantaged (SED) student groups.

-Chronic Absenteeism: Red performance level for Hispanic and SED student groups.

OGCS has no unexpended Learning Recovery Emergency Block Grant (LREBG) funds. OGCS did not receive Equity Multiplier funds, nor does it have 30+ English Learners (ELs) or 15+ Long-Term English Learners (LTELs) enrolled.

OGCS was deemed eligible for additional targeted support and improvement (ATSI) in 2022 and 2023 based on a the identification of the low performance of our Hispanic student group, and as a charter school, the LCAP was used to meet the ATSI planning requirements. However, OGCS exited ATSI in 2024.

OGCS continues to proactively address areas of concern - especially academic performance and college/career readiness - through a robust set of goals and actions tailored to its personalized learning model. The school's strategic approach to engaging educational partners, expanding interventions, and prioritizing student subgroups reflects a commitment to continuous improvement and equity. Continued efforts will focus on expanding implementation fidelity, particularly in intervention programming and college/career initiatives, to ensure all students are well-prepared for academic and life success. The 2025–26 LCAP reflects a focus on expanding intervention, improving attendance, and fostering inclusive, supportive pathways toward academic and post-secondary success.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

No schools identified as eligible.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers & Staff	<p>Weekly meetings were conducted with teachers and staff to discuss progress on LCAP actions and goals, current educational issues and to gather necessary feedback, which was subsequently incorporated into action plans.</p> <p>Surveys were conducted for teachers and staff, designed to gather their perspectives on student needs and potential updates to the LCAP.</p> <p>A midyear LCAP update was provided to staff.</p> <p>Teachers and staff are active participants in the Advisory Council, fostering collaborative decision-making processes.</p> <p>Data analysis and outreach to underrepresented groups were conducted as necessary, ensuring a diverse range of inputs were included in conversations and decisions about the school's function.</p>
Administrators	<p>Regular weekly meetings were held with administrators to facilitate continuous communication and collaboration towards achieving educational goals. This is an ongoing initiative.</p> <p>Administrators participated in surveys.</p> <p>A midyear LCAP update was provided to staff.</p> <p>Administrators are involved in the Advisory Council. Their participation not only streamlined the decision-making process but also facilitated a diversity of opinions, thereby enriching the overall educational strategy.</p>

Educational Partner(s)	Process for Engagement
Parents/Guardians	<p>Regular meetings with parents/guardians, students, and advisors foster open communication and encourage constructive feedback. These meetings emphasized the critical role parents and guardians play in their children's education.</p> <p>A local survey was conducted to gain a deeper understanding of the needs and aspirations of students, parents, and guardians. The collected data was thoroughly analyzed by leadership and the staff as a whole, enabling the school to identify areas for improvement.</p> <p>The California Healthy Kids Survey was administered . This survey collected valuable data on student well-being and engagement, school climate and culture, and the overall status of learning and teaching conditions.</p> <p>There is an established Advisory Council which meets four times per year and is open to parents, guardians, students, teachers, and administrative personnel. The purpose of this council is to develop and implement strategies to enhance the educational landscape of the school through active engagement with various educational partners.</p>
Students	<p>Regular meetings with parents/guardians, students, and advisors foster open communication and encourage constructive feedback.</p> <p>A local survey was conducted to gain a deeper understanding of the needs and aspirations of students, parents, and guardians. The collected data was thoroughly analyzed by leadership and the staff as a whole, enabling the school to identify areas for improvement.</p> <p>Administered the California Healthy Kids Survey to collate data regarding student well-being, requirements, and ambitions to enhance educational planning and support.</p> <p>There is an established Advisory Council which meets four times per year and is open to parents, guardians, students, teachers, and administrative personnel. The purpose of this council is to develop and implement strategies to enhance the educational landscape of the school through active engagement with various educational partners.</p>
SELPA	Participation in the CDE's Special Education Monitoring Processes (including Targeted and Small LEA Cyclical Monitoring)

Educational Partner(s)	Process for Engagement
	Program/Technical support by the Program Specialist and/or other SELPA team members School staff's participation in the SELPA's Professional Learning Offerings
Governing Board	Conducted ongoing updates with the Governing Board to provide regular progress checks and allow for dialogue regarding objectives. Provided a midyear update to the Governing Board Public hearing Approval of the final draft of the LCAP

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Educational partner feedback continues to encourage us to implement additional in-person academic supports and to continue to develop and refine our intervention programming. Additionally, we hear our partners loud and clearly saying they would like more opportunities for enrichment and social interactions for the students. Further development of college and career initiatives is another common theme that emerged throughout our engagement opportunities.

During the development of the goals and actions for the initial year of this LCAP cycle, 2024-25, OGCS carefully considered educational partner engagement and feedback in the following ways.

In response to educational partner feedback regarding the development of in-person services, OGCS implemented the following actions:

- Employing and retaining qualified staff in every classification, with a focus on ensuring teachers are fully credentialed and appropriately assigned, according to independent study guidelines. (Action 1.1)
- Maintaining all facilities to be safe, clean, and in good repair to secure student welfare. (Action 1.2)
- Implementing additional in-person academic support services and arts and music offerings. (Action 2.3)
- Developing and deploying targeted intervention programs in ELA and Math for identified students, providing tailored guidance both virtually and in-person. (Action 2.2)
- Increasing in-person offerings and providing inclusive and diverse events for student enrichment. (Action 3.1)
- Providing regular individualized guidance to students to improve study habits and task completion. (Action 3.5)

In response to the feedback received from educational partners regarding the revision of intervention strategies and professional development efforts, OGCS developed a broad goal to address this feedback through the implementation of specific actions:

- Developing and deploying targeted intervention programs in ELA and Math for identified students, providing tailored guidance both virtually and in-person. (Action 2.1)

Providing professional development and training in integrated ELD methods for core content teachers, overseen by the EL Coordinator, to improve access to State standards and ELD standards in reading, writing, listening, and speaking for EL students. (Action 2.3)
Offering professional learning access through conferences and sessions in response to educational partners' feedback. (Action 2.5)

In response to feedback received from educational partners regarding the formation of college/career readiness programs, OGCS developed a broad goal to address this feedback with the following actions:

Conducting workshops and activities aimed at preparing students for college and career, including dual enrollment opportunities and expansion of career and technical education (CTE) options. (Action 2.7)
Developing individualized graduation plans tailored to the unique strengths, challenges, and future goals of students. (Action 3.6)
Offering elective courses, career exploration, and dual enrollment opportunities to provide multiple pathways to graduation and post-secondary success. (Action 3.6)
Providing regular individualized guidance to students to improve study habits and task completion. (Action 3.5)

In response to educational partner suggestions regarding the establishment of events, activities, and parent/guardian support programs, OGCS has developed a broad goal to address this feedback through specific actions:

Increasing in-person offerings and providing inclusive and diverse events for student enrichment. (Action 3.0)
Developing and implementing at least three workshops to enhance parental involvement and children's educational success. (Action 3.2)
Designating a parent/guardian liaison to coordinate communications, surveys, and resource connections. (Action 3.3)
Developing an orientation course to welcome students into an independent study scenario, facilitating a smoother transition. (Action 3.4)
Organizing community events and workshops to overcome barriers to attendance and emphasize the importance of education. (Action 3.4)
Offering targeted support services such as transportation assistance, access to supplies, mental health resources, and academic tutoring to eliminate barriers to attendance and encourage academic success. (Action 3.4)

In response to the feedback received from educational partners regarding the necessity to foster student engagement, OGCS has developed a broad goal to address this feedback through the implementation of attendance initiatives.

Increasing in-person offerings and providing inclusive and diverse events for student enrichment. (Action 3.0)
Incorporating community resources and supports to aid students. (Action 3.1)
Developing and implementing at least three workshops to enhance parental involvement and children's educational success. (Action 3.2)
Organizing community events and workshops to overcome barriers to attendance and emphasize the importance of education. (Action 3.4)
Offering targeted support services such as transportation assistance, access to supplies, mental health resources, and academic tutoring to eliminate barriers to attendance and encourage academic success. (Action 3.4)
Designating a parent/guardian liaison to coordinate communications, surveys, and resource connections. (Action 3.3)

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	<p>Conditions of Learning</p> <p>To ensure all students have access to equitable conditions of learning, the school is committed to ensuring equitable learning conditions by hiring qualified staff, upgrading facilities, and providing instructional materials. These efforts are part of a plan evaluated on resource equity, material relevance, and their impact on teaching and learning.</p>	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

With this goal the school aims to address two critical challenges in alignment with State Priorities 1 and 2. The first pertains to the provision of fundamental educational services, with a particular focus on adhering to state standards (Priority 2). To this end, the school is committed to ensuring that each educator possesses the appropriate credential and is well-equipped to perform their role. Furthermore, it is guaranteed that every student will have access to essential instructional materials that are in compliance with state standards. In addition, the school seeks to elevate student achievement and expand access to a broader range of courses (Priority 7). This objective will be realized through the introduction of an extensive, rigorous curriculum that meets grade-level standards and provides a solid foundation for further academic pursuits and career opportunities. In striving to attain these goals, significant attention is devoted to the upkeep of school facilities (addressed under Priority 1), to ensure an optimal learning environment. The ultimate aim is to ensure that each student has access to the curriculum, materials, and resources required to meet their individual needs. The successful accomplishment of these goals is anticipated to lead to equitable outcomes, heightened academic achievement, and enhanced distribution of resources throughout the school.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

There were no substantive differences in the planned actions and actual implementation. All planned actions were implemented.

Challenges included:

Teacher Credentials and Assignments: Increased number of "ineffective" teachers per ESSA, which displays as teachers without credentials or misassignments (though all are appropriately credentialed and assigned under CA local assignment options).

Successes included:

Qualified Staff: 100% of teachers are appropriately assigned per EC 44865.

Instructional Materials: Successfully ensured that no students lacked instructional materials, maintaining a 0% rate of students without the necessary resources.

School Facilities: Achieved a "Good" overall rating for school facilities each year, with no planned repairs needed.

EL Programs: The EL/MLL program met local indicators each year, ensuring English learners had the necessary support to access the curriculum.

Technology: Successfully maintained adequate technological resources for all students and staff.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Actual expenditures for all actions exceeded planned expenditures. These material differences between budgeted and actual expenditures are due to increased personnel costs, additional curricular costs, required facilities maintenance and upkeep, as well as a greater than anticipated need to replace, enhance, and upgrade technology.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall, all four of the actions were effective in making progress towards goal 1 during the 2024-25 school year.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

No changes were made to the goal, metrics, target outcomes, or actions for the coming year.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Staff recruitment, retention, induction, and mentoring	<p>Employ and retain qualified staff in every classification.</p> <p>Ensure teachers are fully credentialed and appropriately assigned, per independent study guidelines.</p> <p>Spending Items: Staffing-related costs</p> <p>Corresponding Metrics: Metric 1: Teachers appropriately assigned and credentialed (1a)</p>	\$830,000.00	Yes

1.4	Technology	<p>Maintain 1:1 student access to Chromebooks.</p> <p>Continue to provide portable Internet access to eligible students.</p> <p>Maintain appropriate and adequate technology resources for staff and student use in the learning center.</p> <p>Spending Items: Technology - Chromebooks, Hotspots, Internet/Wifi, Staff/facility technology</p> <p>Corresponding Metrics: Metric 2: Students who have access to standards-aligned instructional materials (1b) Metric 4: Implementation of CA standards for all students, including how ELs have access to core standards and ELD standards (2) Metric 5: Students with access to and enrolled in a broad course of study (7)</p>	\$20,000.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Student Outcomes Provide high-quality, equitable, and responsive instruction so that all students can reach their full academic potential. Actions will focus on differentiated learning, inclusivity, and respect for diversity.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes) Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The school is committed to enhancing student achievement across key academic disciplines through tailored support, on-campus services, and staff advancement. This strategy aligns with the State's Priority 4, which underscores the significance of performance on standardized assessments, preparedness for college and careers, and the reclassification rate of English learners. With a proactive approach, the school aims for EL students to successfully transition from English learners to proficient users of the language.

Moreover, the school is focused on strengthening initiatives that promote readiness for college and career paths, affirming its commitment to fulfilling the State's Priority 8. This objective, supported by the guidance of counselors, reflects the school's dedication to equity, curriculum excellence, and ongoing professional development. The school's actions are aimed at improving student outcomes in line with established educational standards.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Actions 2.4, 2.5, and 2.6 were fully implemented, while actions 2.1, 2.2, 2.3, and 2.7 were partially implemented

Challenges include partial implementation of the following actions:

In-Person Services - New art and music offerings were plentiful, though in person academic supports were limited.

Intervention - Virtual tutoring was offered, and intervention programs were developed and implemented. However, further enhancements need to be made to the intervention programming.

Assessments - Efforts to increase familiarity and comfort levels with CAASPP in an effort to reach 95% participation rates were implemented, including, but not limited to, administering the interim assessments. Initial calculations indicate that 95% participation was achieved.

Benchmark assessments were administered and the results used to drive intervention placement. CAASPP test preparation strategies were not implemented consistently.

College/Career

Some workshops and activities geared towards college and career readiness were offered, including reviewing post secondary options, FAFSA, and resume writing. We intend to offer additional topics in the coming school years.

Students engaged in dual enrollment opportunities, and we have plans to further increase familiarity with and access to these opportunities

We researched and selected CTE options to offer next school year.

Field trips to local community colleges were held and a virtual presentation by a 4-year university was scheduled but not held due to low participation.

A virtual college/career planning platform was not implemented and will be carried forward to the coming school year.

Successes include:

English Learners - Major progress made by our English Learners. this group showed tremendous growth in benchmark assessments and ELPAC.

Students with Disabilities - Good progress for our Students with Disabilities. Benchmark assessment results show growth.

Professional Development and Coaching - High levels of participation in conferences and workshops.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Estimated actual expenditures for actions 2.2, 2.4, and 2.5 are higher than planned amounts. These material differences are due to increased personnel needs and resulting costs. Estimated actual expenditures for action 2.1 is lower than planned. This material difference is largely due to implementing fewer workshops and activities than planned.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The effectiveness of the actions is mixed. It is clear that significant challenges remain in improving student academic outcomes, as evidenced by declining benchmark assessment scores however, there was growth in CAASPP DFS in both ELA and math from baseline.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Metric 2.3 - Added CA School Dashboard Science. No significant changes were made to the goal, target outcomes, or actions for the coming year though we do intend to implement additional elements of the actions that were only partially implemented to date.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	In-Person Services	Increase in-person academic support services, including but not limited to additional instructional time and small- group instruction. Develop and implement arts and music offerings. Spending Items: Arts & music programming In-person activities Corresponding Metrics: Metric 1: Statewide assessments CAASPP ELA (4a) Metric 2: Statewide assessments CAASPP Math (4a) Metric 3: Statewide assessments CAST Science (4a)	\$10,000.00	

Action #	Title	Description	Total Funds	Contributing
		Metric 9: Other student outcomes: Benchmark assessments Reading (8) Metric 10: Other student outcomes: Benchmark assessments Math (8)

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Engagement Foster a welcoming and inclusive environment for all parents/guardians, families, and educational partners in support of all students' personal and academic success.	Broad Goal

State Priorities addressed by this goal.

<ul style="list-style-type: none"> Priority 3: Parental Involvement (Engagement) Priority 5: Pupil Engagement (Engagement) Priority 6: School Climate (Engagement) Priority 8: Other Pupil Outcomes (Pupil Outcomes)
--

An explanation of why the LEA has developed this goal.

The primary aim of this goal is to augment the infrastructure for parent/guardian engagement, thereby escalating the amount of parental feedback and active participation within the decision-making process and programs (Priority 3). The second aim is to conceive and enforce strategies with the aim of reducing the instance of chronic absenteeism and dropout rates, while increasing the graduation rate (Priority 5). It is anticipated that an increase in parental engagement will facilitate the development of a more inclusive, supportive school environment, thus providing the foundation for the successful accomplishment of the overall objective. As part of the effort to address the issues of chronic absenteeism and dropout rates, all strategies will align with Priority 5. These actions are projected to cultivate a more positive schooling atmosphere, aiding in the achievement of equal outcomes for all students. In addition, these steps will serve to build robust partnerships with families and the community at large.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Actions 3.1, 3.4, 3.5, and 3.6 were fully implemented, while actions 3.2 and 3.3 were partially implemented

Challenges include partial implementation of the following actions:

Mental Health - There was increased collaboration with community partners, but there is room for enhanced development of these relationships.

Parent/Guardian Support/Training - Only 1 of 3 parent workshops was implemented.

Successes include:

Increased in-person offerings, including our first open house/award ceremony event since before the pandemic. Olive Grove sponsored a booth at a community event for the first time.

Annual perception surveys continue to demonstrate a strong sense of safety and belonging.

Individualized coaching and targeted supports removed barriers, decreased chronic absenteeism, and improved student perceptions.

Improved graduation rates.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Material differences between budgeted and estimated actual expenditures for 3.1, 3.2, and 3.3 are largely due to implementing fewer workshops and activities than planned. Additionally, many free resources were utilized, reducing expenditures. Estimates actual expenditures exceeded planned expenditures for action 3.4 due to higher than anticipated personnel expenses.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall the actions taken to date were effective in making progress toward the goal, as indicated by maintaining zero suspensions and expulsions, improved graduation rates, and most notably, by the overall positive satisfaction survey results.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

No significant changes were made to the goal, target outcomes, or actions for the coming year though we do intend to implement additional elements of the actions that were only partially implemented to date.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Student and Family Events/Activities	Provide increased in-person offerings, including enrichments, social events, clubs, activities. Provide a variety of field trips and opportunities for community involvement.	\$2,500.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Organize events and celebrations that highlight the richness of diversity within the school community and promote inclusivity and acceptance among all students.</p> <p>-ATSI (Hispanic)</p> <p>Spending Items: Events-materials, marketing/promotion Clubs, enrichments Field trips</p> <p>Corresponding Metrics: Metric 1: Parent input in decision-making; parental participation in programs for unduplicated pupils & students with exceptional needs (3) Metric 9: Surveys measuring safety & connectedness (6c)</p>		
3.2	Mental Health	<p>Incorporate community resources and supports, such as programs provided through local non-profit organizations (YouthWell, Casa Pacifica, County Behavioral Wellness) and the State (Soluna, Brightlife Kids). This measure is intended to strengthen familial involvement and endorse student success.</p> <p>Spending Items: Promoting partnerships</p> <p>Corresponding Metrics: Metric 4: Middle school dropout rate (5c) Metric 5: High school dropout rate (5d) Metric 7: Suspension rate (6a) Metric 8: Expulsion rate (6b)</p>	\$500.00	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Staff recruitment, retention, induction, and mentoring</p> <p>Need: Needs: The school community has ascertained that there's a compelling requirement for "Staff recruitment, retention, induction, and mentoring". This necessity emerged from because where students lack access to</p>	<p>Explanation: The primary focus is on the action of staff recruitment, induction, retention, and mentoring. This is executed LEA-wide to ensure that all students are provided with the advantage of instruction from fully qualified and appropriately assigned staff. Fully certificated teachers will help prevent and remedy potential gaps in student learning and overall scholastic development.</p> <p>Rationale:</p>	Metric 1: Teachers appropriately assigned and credentialed (1a)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>adequate instructors, it can potentially create gaps in their education and overall academic growth. The essence of the requirement is to ensure that all student groups across the school have access to adequately qualified and suitably positioned staff.</p> <p>Assessment: The action is designed to address these needs by making certain that every classification is equipped with the recruitment and retention of qualified personnel. It makes sure that teachers are completely credentialed and correctly assigned as per independent study guidelines, thereby ensuring access to quality education for all student groups. The action extends across the entire school to guarantee that all student groups, irrespective of their unique situations, gain from the hiring and retention of capable staff. The success of the action is measurable through the percentage in fully credentialed and appropriately assigned teachers.</p> <p>Scope: LEA-wide</p>	<p>Applying this action across the LEA is central towards maximizing academic outcomes for every student and to ward off any inconsistencies in the education quality across the school. The successful implementation of this action can be tracked through measures such as the count of fully qualified teachers. This action attempts to make certain that all student groups, irrespective of their distinct circumstances, gain from a structured approach towards the recruitment and retention of commendable staff.</p>	
<p>1.4</p>	<p>Action: Technology</p> <p>Need: Needs: The needs identified within the school revolve around enhancing technological access and resources. All student groups require individual access to a device for their</p>	<p>Explanation: The purpose for the LEA-wide scope of the action primarily hinges on the need to address the established prerequisites of every student group within the school. This is of vital importance where the curriculum is almost exclusively delivered online, requiring that every student have individual access to technological tools such as Chromebooks, as well as reliable internet</p>	<p>Metric 2: Students who have access to standards-aligned instructional materials (1b) Metric 4: Implementation of CA standards for all students, including how ELs have access to core</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>academic endeavors. There is also an apparent necessity to furnish portable Internet access to eligible pupils, which often stems from the unavailability or unreliability of home Internet connections. Moreover, it is integral to provide the adequate and contemporary technological resources to both the staff and students within the learning center.</p> <p>Assessment: The action was formulated aiming to address these technology related needs. It proposes to maintain a 1:1 student to Chromebook ratio, guaranteeing that every student has access to the necessary digital apparatus for their studies. Portable Internet access is also planned to be provided to eligible pupils, eradicating the digital divide and ensuring uninterrupted learning. Moreover, this action will guarantee that the learning center is suitably outfitted with updated and sufficient digital resources for the staff as well as the students.</p> <p>Scope: LEA-wide</p>	<p>connectivity. It is not just about the students alone: adequate technology resources must also be made available to staff to aid in successfully assisting the students, regardless of whether the learning process is remote or in-person. This extensive scope is formulated to ensure that each student and staff member, across the school, is provided with the necessary tools needed for effective teaching and learning.</p> <p>Rationale: The reasoning behind implementing this action is rooted in the desire to bridge the technology gap, ensuring equitable access to education across the school. Providing individual access to technology for each student and ensuring every member of staff is adequately equipped creates an environment conducive for effective and smooth learning. In a broader sense, this move is not just necessary, but vital in promoting education equity across the entire school. The LEA-wide scope is therefore deemed the most effective strategy to implement the Technology action.</p>	<p>standards and ELD standards (2) Metric 5: Students with access to and enrolled in a broad course of study (7)</p>
<p>3.5</p>	<p>Action: Attendance Initiatives</p> <p>Need: Needs: Various demands in the student community necessitated the creation of the Attendance Initiatives. These needs encompass: Firstly, a call for guidance and consistent coaching to</p>	<p>Explanation: The intention behind the broad execution strategy is to enable a homogeneous and systematized approach to combat obstacles hindering regular student attendance and bolster their academic success throughout all the LEA.</p> <p>Rationale: This sweeping scope significantly benefits diverse student demographics. Notably, students enrolled</p>	<p>Metric 2: Attendance rate (5a) Metric 3: Chronic absenteeism rate (5b)</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>bolster study habits and task completion, especially in a self-guided study environment, arising from students' struggles with time management and maintaining motivation. Secondly, a need for culturally sensitive practices to better staff-student interactions and nurture a more inclusive school atmosphere, rooted in the diverse backgrounds of the student population. Lastly, a requirement for community involvement and resources to overcome attendance obstacles and emphasize the value of education. This requirement is particularly emphasized among SED students due to their frequently noted challenges such as transport issues and lack of access to essential resources.</p> <p>Assessment:</p> <p>In response to these needs, the Attendance Initiatives have outlined various strategies. An orientation program is to be established to integrate students into the self-paced study environment, along with regular coaching from advisors, education experts, and counselors to foster improved study habits. Staff will be equipped with resources and techniques to implement culturally sensitive practices in their approach. Community events and workshops will be organized to tackle attendance obstacles, alongside the provision of focused support services to eliminate these hindrances and foster student success. The action encompasses all student groups, focusing particularly on unduplicated students. The action is all-encompassing, addressing the academic, socio-economic, and cultural needs of the students. The action's effectiveness will</p>	<p>in independent study programs, where the call for substantial support to achieve learner autonomy is pivotal, will also reap significant advantages from this comprehensive LEA-wide strategy. By committing to this extensive scope, the LEA fosters an inclusive education system positioned to nurture all students' unique needs and challenges. This enables the provision of essential academic tools and backing to help students flourish both academically and personally.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>be measured through the reduction of chronic absenteeism among unduplicated students, as well as across the board improvements in study habits and task completion. The action's success will be gauged through regular check-ins and student progress assessments.</p> <p>Scope: LEA-wide</p>		

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
2.2	<p>Action: Intervention</p> <p>Need: Needs: The school community identified several needs that led to the creation of an action plan titled "Intervention." These needs emphasized targeted educational support for all students, with a particular emphasis on unduplicated students. These groups were found to need additional aid in English Language Arts (ELA) and Mathematics, with Mathematics being recognized as a prominent area of concern for the groups in question.</p>	<p>Explanation: The action "Intervention" is designed with a restricted focus, aimed specifically to serve student groups that have been identified as needing extra support, particularly in English Language Arts (ELA) and Mathematics. This includes all students, with a distinct emphasis on unduplicated students. Key features of this action include in-person or virtual tutoring, tailored intervention programs in ELA and Mathematics, and cooperation between staff and families to identify the most effective instructional strategies. The narrower scope of this action allows for a concentrated focus on the students with the highest needs.</p>	<p>Metric 1: Statewide assessments CAASPP ELA (4a) Metric 2: Statewide assessments CAASPP Math (4a) Metric 3: Statewide assessments CAST Science (4a) Metric 9: Other student outcomes: Benchmark assessments Reading (8) Metric 10: Other student outcomes: Benchmark assessments Math (8)</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>Assessment: In response to the identified needs, the "Intervention" action plan encompasses a range of initiatives. These initiatives consist of the provision of in-person or virtual tutoring, the design and implementation of targeted intervention programs in ELA and Mathematics, and the creation of specific programs aimed at supporting unduplicated students in Mathematics. The action additionally focuses on collaboration with staff and families in an attempt to find effective instructional strategies and resources that address the unique needs and strengths of these student groups. The scope of the action plan is comprehensive, serving all student groups within the school community, but it is specifically tailor-made to assist unduplicated students.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>Rationale: The reasoning for the restricted scope of the Intervention action is to ensure that the resources allocated are used to maximum effect. By concentrating on students who require the most support, resources are directed exactly where they are most needed. This guarantees that interventions are directly targeted to those who need them the most, thereby significantly improving the effectiveness of the actions taken. Students are identified based on their performance in ELA and Mathematics, ensuring a strategic approach to educational support that aims to bridge the achievement gap.</p>	
2.4	<p>Action: English Learners</p> <p>Need: Needs: The school community has identified certain needs leading to the formulation of the "English Learners" action. The needs primarily pertain to the group of students classified as English Learners. These students may encounter difficulties in meeting the State standards and ELD standards in aspects such</p>	<p>Explanation: The "English Learners" action demonstrates a concentrated focus, an aspect designed to precisely address the unique requirements of English Learners. These specific students are often met with obstacles when it comes to achieving both State and ELD standards, primarily due to their varying proficiency in the English language. With a view to addressing this obstacle, the action delivers an ELD program specifically tailored to them, under the guidance of an EL Coordinator. The central focus of this program is to</p>	<p>Metric 7: English learner reclassification rate (4e) Metric 8: English learners making progress or maintaining 4 on ELPAC (4f)</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>as reading, writing, listening, and speaking, largely due to their limited proficiency in English. There is a potential risk of these challenges negatively affecting their academic progress and overall experience in school.</p> <p>Assessment: In order to address these needs, the "English Learners" action has been carried on. The EL Coordinator will ensure that EL students are able to access State standards and ELD standards by way of a designated ELD program. This will aid the students in enhancing their English language skills and understanding of academic content. In addition to this, the EL Coordinator will also be responsible for the execution and oversight of professional development and training using integrated ELD methods for core content teachers. This strategy is aimed at equipping teachers with essential skills and knowledge to teach and provide support to EL students effectively. The action strives to foster a supportive and inclusive learning environment for the EL students, while concurrently improving the teaching skills of the staff. Tracking and monitoring the success of the action through relevant data and statistics will be a key part of the assessment, which will include tracking students' advancements in English language proficiency and academic performance, and evaluating the impact of teacher training on teaching practices and student outcomes.</p> <p>Scope:</p>	<p>provide exposure to State and ELD standards, with an aim to foster improved competence in reading, writing, listening, and speaking.</p> <p>Rationale: The reason for restricting the scope of the action is to deliver effective and individualized assistance to the English Learners and to enhance their academic progression and overall schooling experience. To this end, the action broadens its reach to incorporate professional development opportunities and training for teachers. By equipping the educators with ELD techniques integrated into their teaching methods, the action enables them to assist English Learner students more effectively. However, limiting the scope also ensures that the requirements specific to the learners are not diluted or overlooked; thus, facilitating a more comprehensive and effective educational experience for them.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	Limited to Unduplicated Student Group(s)		

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

N/A - The additional concentration grant add-on funding is not sufficient to increase the number of staff. The LEA is implementing actions as indicated above that are aimed at retaining staff to provide direct services to students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> • Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
